PERSONAL STATEMENT

I am a self-taught coder who loves problem solving and creating beautiful, functional, responsive websites.

Through my previous work experience I have developed excellent communication skills and I enjoy working as part of a team and also alone using my own initiative.

I have a passion for learning and improving my skill set. I am an analytical thinker who strives to deliver my best in everything I set out to do.

By gaining industry experience I truly feel I can take the next steps in my career change and become a valuable member of any team and further enhance my skill set.

PROJECTS

Random Icebreaker Questions — *HTML, CSS, Javascript*

Live site link   Github code link

A random question generator app. Designed to help teachers engage with quiet students in conversation classes.. It is fully responsive and questions do not get repeated.

Tennis Balls Guessing Game — *HTML, CSS, Javascript*

Live site link   Github code link

A guessing game where players guess the next number between 1 and 20. The same number cannot be the next number. Fully responsive.

Portfolio — *HTML, CSS, Javascript*

Live site link   Github code link

My personal portfolio page with more information, other projects, contact details and links. Fully responsive.
